From the editor

“May” here already and the show right around the corner! We have been doing everything we can to get ready for this event. Alison tells me that this show will be a great one so be sure to come out and join in representing Waco Gem and Mineral Club!

Post Script: I apologize for the late delivery of this month’s Gritty Greetings! I let it slip past me in the fog of daily activities and I’m just late getting it out! Thanks for your understanding.

<< << << << << << << << << << <> >> >> >> >> >> >> >> >>

Alison Redding, our Show Chair, wants to encourage everyone to participate in the upcoming Show this coming May. If you want to volunteer to help with the show please contact Alison at the meeting or at the number listed for her under the Show Information.

Upcoming Shows and Events

THIS IS IT!!! This weekend is our show!! Tell your friends and bring your families.

The 59th Annual Waco Gem and Mineral Show will be held on Saturday May 4, 2019 and Sunday May 5, 2019. Our event last year was met with a huge response and we expect an even bigger turnout this year!

MAY BIRTHSTONE: Emerald

May birthdays fall right in the heart of spring, and the emerald is the perfect gem to symbolize and celebrate this month. Prized for its brilliant and beautiful green color, the emerald is often favored by the rich and famous to wear as statement pieces for big events.

But this beautiful gem is just at home in an unassuming pendant as it is in an ornate tiara. Learn more about May's birthstone below!

As the birthstone for May, the emerald, a symbol of rebirth, is believed to grant the owner foresight, good fortune, and youth. Emerald, derived from the word "smaragdus," means, quite literally, "green" in Greek.

Like aquamarine, emerald is a variety of beryl, a mineral that grows with six sides and up to a foot in length. Emerald color can range from light green (though there is some argument whether these very light beryls are truly emeralds) to a deep, rich green. Emeralds are also like aquamarine in that the way the color is presents itself in jewelry depends on a good cut by a skilled gemologist.

The deeper or greener an emerald, the more valuable it is. The rarest emeralds will appear to be an intense green-blue.

Emeralds are found all over the world, including Colombia, Brazil, Afghanistan and Zambia. The availability of high-quality emerald is limited; consequently, treatments to improve clarity are performed regularly.

The emerald was mined in Egypt as early as 330 BC, but some estimate that the oldest emeralds are 2.97 billion years old.

Cleopatra is perhaps the most famous historical figure to cherish emeralds. She even claimed ownership of all emerald mines in Egypt during her reign.

The Egyptians used emeralds both in jewelry, and in their elaborate burials, often burying emeralds with monarchs as symbols of protection.

On the other side of the world, the Muzo Indians of Colombia had well-hidden and prized emerald mines. These mines were so hidden, it took the Spanish conquistadors nearly twenty years to find them.

Like other gemstones, the emerald was believed to have many mystical powers that accompanied its beauty. There were those who thought the emerald could cure stomach problems, control epilepsy and stop bleeding. Maybe due to its soothing green color, it was also thought to be able to ward off panic and keep the wearer relaxed and serene.

Today, emerald is a symbol of loyalty, new beginnings, peace and security, making it not only a beautiful gem to wear, but also a meaningful gift to be treasured by the receiver. It is still widely prized by the rich and famous, with Elizabeth Taylor's famous emerald pendant selling for \$6.5 million in 2011.

Many thanks to the American Gem Society for this article on April's Gem Stone.

Name Tags:

It is great that we feed the pig at our meetings because we don't have or have lost or forgotten our nametags to drop a quartering the pig. The money from the pig goes toward our Scholarship program, and we really do appreciate every 2 bits, 4 bits, 6 bits or more. However, if you need a nametag you can purchase them at the businesses below!

Waco Gem & Mineral Club nametags are available at **Print Mart**, 202 Deb (behind AutoNation Chevrolet). Cost with a pin back is \$8.00 (with tax \$8.66), and with a magnet back is \$11.00 (\$11.91). or at Award Specialties at 431 Lake Air Dr.

Club Dues:

Annual Waco Gem and Mineral Club dues are \$12.00 for an individual membership or \$20.00 for a family membership. Please check with Jackie if you aren't sure whether you've paid your Dues!

Shop Fees:

Lapidary Workshop fee is \$2.00 per hour. Slab Saw fee is an additional \$2.00 per hour. Class fees are always dependent upon class and instructor.

Club Purpose

- to bring about a close association of those persons interested in earth science and lapidary arts
- to increase and disseminate knowledge about rocks, minerals, fossils, Indian artifacts and other geological materials
- to encourage lapidary art and the collection and exhibition of rocks, minerals, fossils and artifacts
- to conduct field trips, meetings, lectures, displays and an annual show for the edification of the public
- to cooperate with educational and scientific institutions and other groups in increasing knowledge and popular interest.
